EverDesk Google Edition Activation

EverDesk Google Edition is a straightforward application with comprehensive options designed to let users of Google services like Gmail or Contacts easily manage their inboxes and agendas. It provides a user-friendly and intuitive interface divided into five tabs (General, Links, Contacts, Programs, Documents), each offering distinct options and individual sections. Fast access to paired Google accounts When you first start the program, the EverDesk Configuration Wizard begins, guiding you through the application's setup process. The first major step, of course, is to pair one or more of your Google accounts in order to access relevant data. Once the configuration process is completed, you can access the many different options that enable managing your Gmail inbox, your Google Drive files, as well as your contacts and other important information. This can be done through the panels located on the left side of the window, as well as through the tabs located near the top. You can adjust the layout of the information panes by choosing from the three available options in the bottom right. A row of basic buttons also help you perform simple email-related actions like writing a new one, replying to one or all the participants in a conversation, as well as forwarding or deleting the currently selected message. You can also categorize it as junk or print it out. Access different Google services easily Once you come to grips with the user interface, the program enables you to quickly access a variety of Google services, chief among which being Gmail. You can use multiple accounts, each with their own mailboxes, complete with all the files and folders you would normally see in the web version of Google's email service. In addition to managing your email with this application, you can also browse through your Google Drive folder as well as copy and paste files from the cloud storage service to your local drive and vice-versa. The program also displays the current calendar, complete with all the appointments you have set in Google plus the extra custom calendars that include information like birthdays or holidays. You can also manage your contacts by searching through your existing agenda and then sorting them by name, phone number, or address. Conclusion All in all, EverDesk Google Edition enables users with Google accounts to manage their Gmail inboxes, the Google Drive folders, as well as their calendar and contacts information easily right from their desktop.
